# WORKWEAR SYMBOLS

The symbols below represent various features of our garments and footwear. The following definitions apply:

## SABS APPROVED

The SABS (South African Bureau of Standards) is a national body that promotes and maintains the standards and quality of all commodities and services that are available in South Africa. Our range of SABS approved garments are certified in accordance with SANS 434. Our 100% cotton J54 and D59 fabrics are certified to SANS 1387.

### ACID RESISTANT

Our Acid Resistant garments offer certified protection against penetration, absorption and repellency to low volatility liquid chemicals in accordance with ISO EN 6530.

### FLAME RETARDANT

Our Flame Retardant garments offer certified protection where there is a risk of contact with heat and flame. ISO EN 11611 / 11612 / SANS 1423-1

### WATERPROOF

Our waterproof garments can withstand 3000 - 5000mm of water over a 24 hour period without leaking.

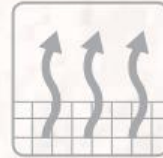

### COLD RESISTANT

Our cold resist garments offer protection in working environments of up to -20°C.

### YKK

We use YKK zips on our premium range of Javlin garments. YKK is the world's largest and most trusted zip manufacturer.

### BREATHABLE

Our breathable fabric allows moisture vapour to be transmitted through the material. This way the wearer stays dry while working.

### TRIPLE NEEDLE STITCH

We use triple needle stitching on stress bearing seams of selected garments to enhance durability.

### HI-VIS

The reflective tapes on our high visibility garments are ISO EN 20471 (Class II) certified making the wearer visible in hazardous situations regardless of lighting conditions.

# FOOTWEAR SYMBOLS

Our safety footwear with CE marking meets the requirements of CE EN ISO 20345 standard, confirming that the product meets the requirements of European guidelines regarding Personal Protective Equipment (PPE), and has been subjected to testing carried out by a recognised European testing institute.

### STEEL TOE CAP

Steel toe caps for protection from falling objects and compression are tested with 200 Joule impact and 1500 KN compression.

### SHOCK ABSORBENT

Shock absorbent heels protect the body against stress.

### HEAT RESISTANT

Heat resistant soles withstand heat of up to 80°C.

### ANTI STATIC

Anti static soles are designed to discharge the body's static electricity up to tolerances of 100 kΩ - 1000 MΩ.

### OIL RESISTANT

Oil resistant outsoles are resistant to most oils and chemicals.

### SLIP RESISTANT

SRA slip resistant rating for slip resistance on ceramic tiles with 0.5% Sodium Lauryl Sulphate.
